DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This house, facing east on South Conococheague Street is a two story, five bay brick structure which probably dates from the third quarter of the 19th century. Its entire surface has been painted red and the three central bays at the first story have been altered. Apparently the house originally had a central front entrance. This entrance has been blocked shut with white imitation stone. The former window bays on either side of the original door have been enlarged to form the present doors. Windows have six over six pane double hung sashes beneath wide wood lintels with plain corner blocks. The roof is sheathed with standing seam sheet metal and brick chimneys are located inside the end walls. At the eaves is a course of decorative brackets attached to the frieze.
